

The following thought leaders, educators, and researchers comprise the Editorial Board of the *Oncology Nursing Forum* (ONF) for 2015. Each brings a unique skill set based on years of oncology experience to the work of the journal. The associate editors support the mission of *ONF*: to convey research information related to practice, technology, education, and leadership, to disseminate oncology nursing research and evidence-based practice to enhance transdisciplinary high-quality cancer care, and to stimulate discussion of critical issues relevant to oncology nursing. Each associate editor shepherds a column in the journal; their contributions can be seen in every issue. Contact information for the editors can be found at the end of each description.

Journal Editor

Anne Katz, RN, PhD, FAAN, is a well-known author and presenter in the area of cancer and sexuality, as well as survivorship. In her day job, she works as a clinical nurse specialist, helping men newly diagnosed with prostate cancer make treatment decisions. She is also an American Association of Sex Counselors, Educators, and Therapists–certified sexuality counselor, working with men and women of all ages with different kinds of cancer who are experiencing sexual difficulties during and after treatment. Anne has written nine books about cancer. She is an avid traveler and a lover of fine food and wine.

Anne is the editor of the *Oncology Nursing Forum* and can be reached at ONFEditor@ons.org.

Associate Editors

Lisa B. Aiello, RN, MSN, AOCNS®, APN-C, is a doctoral candidate in the College of Nursing at Villanova University. She has been an oncology nurse for 22 years. Lisa is an assistant clinical professor at Drexel University, College of Nursing and Health Professions, in Philadelphia, PA. She primarily teaches genetics and genomics in the undergraduate program. She was the program coordinator for a cancer risk evaluation program and worked as a database manager for eviti, Inc.®,

an oncology evidence-based decision-making platform, both in Philadelphia. She is an active member and ex-officio (past president) of the Oncology Nursing Society (ONS) Cancer Genetics Special Interest Group (SIG). She is also a member of the International Society of Nurses in Genetics and is the chair of its oncology SIG.

Lisa is the associate editor of the Genetics and Genomics column and can be reached at lba34@drexel.edu.

Nancy G. Houlihan, RN, MA, AOCN®, is the nurse leader for the Breast and Imaging Center at Memorial Sloan Kettering Cancer Center (MSKCC) in New York. She has been an oncology nurse for more than 30 years, with particular clinical expertise in the management of treatment- and disease-related side effects and the care of survivors.

Nancy received her bachelor of science in nursing degree from Hunter College and her master of arts in nursing degree from Teachers College, Columbia University, in New York. She has worked at MSKCC in various clinical and administrative positions, including staff nurse in pediatric and medical oncology, clinical instructor in the Department of Nursing Education, clinical nurse specialist in ambulatory chemotherapy and physician office practice, and clinical program manager for the Cancer Survivorship Program. She received the Rudin Award for Advanced Oncology Nursing Practice and has been recognized for her volunteer work with CancerCare, Inc. She is certified as an advanced oncology nurse.

Nancy has lectured and published extensively about the care of patients with cancer, as well as survivors. She was an adjunct faculty member in the Master of Science Program in Oncology Nursing at Columbia University from 1990–2011. In addition, she has authored several articles, abstracts, and posters about cancer symptom management, particularly in the areas of thrombosis and cancer survivorship; was editor of *Lung Cancer*, first and second editions; authored a chapter on survivorship in *Advanced Practice Oncology Nursing Certification*; and coauthored a chapter on cancer survivorship in the third edition of the *Oxford Textbook of Palliative Nursing*. In addition, Nancy was editor of the lungcancer.org website and serves on the advisory team for Cancer.Net, a patient-focused website sponsored by the American Society of Clinical Oncology. She is a board member of the New York City Chapter of ONS, was chair of the National ONS Nominating Committee, and is a member of the annual ONS Congress Planning Team.

Nancy is the associate editor of the Update On column and can be reached at houlihan@mskcc.org.

ONF, 42(1), E1–E2. doi: 10.1188/15.ONF.E1-E2

Diane G. Cope, RN, PhD, ARNP-BC, AOCNP®, received her doctoral degree in nursing from the University of Miami in Coral Gables, FL, and her master's degree in nursing from the University of Akron in Ohio. She has been an oncology nurse for more than 20 years, previously working as a staff nurse and educator in graduate and undergraduate nursing, and is an oncology nurse practitioner in the ambulatory setting at Florida Cancer Specialists and Research Institute in Fort Myers. Her research and

practice specialty areas are geriatric oncology and breast cancer. Diane has coedited geriatric oncology nursing books, published numerous journal articles and book chapters, and presented at national conferences. She has served previously as a reviewer and associate editor for the *Clinical Journal of Oncology Nursing* and a reviewer for the *Oncology Nursing Forum*.

Diane is the associate editor of the Methods and Meanings column and can be reached at dgcope@comcast.net.

Cindy J. Rishel, PhD, RN, OCN®, received her bachelor of science in nursing degree from Wichita State University in Kansas. Throughout her 40-plus-year career as an RN, she has worked in a variety of settings, including adult intensive care unit, critical care, and high-acuity inpatient pulmonary units, as well as in adult and pediatric bone marrow transplantation, hematology,

and oncology. Cindy has extensive accreditation and survey experience with Centers for Medicare and Medicaid Services, Joint Commission, and Foundation for the Accreditation of Cellular Therapy. She has several years of hospice and palliative care experience in a free-standing hospice program and in an inpatient palliative care program. She earned her doctoral degree in nursing from the University of Arizona, where she received the Outstanding Disserta-

tion Award for her research study, *The Realization of Parental Knowing: End-of-Life Decision Making in Pediatric Blood and Marrow Transplantation*. She has published in the *Oncology Nursing Forum* and is also a peer reviewer for the journal. Cindy has presented her conceptual framework for the study of end-of-life decision making and her research findings at several national conferences, receiving the first place award for her poster presentation at the 11th ONS Research Conference in Los Angeles, CA. She is a clinical associate professor in the College of Nursing at the University of Arizona and teaches in the master's and doctoral programs. She is a member of Sigma Theta Tau International Honor Society of Nursing and ONS. Her research interests include pediatric oncology, end-of-life issues and symptom management for pediatric patients and their families, and pediatric palliative care and parent decision making at the end of life.

Cindy is the associate editor of the Leadership and Professional Development column and can be reached at rishelmom@gmail.com.

Erin Streu, RN, MN, CON(C), received her bachelors and masters degrees in nursing from the University of Manitoba in Winnipeg, Canada. She has been an oncology nurse for 15 years and began her nursing career in palliative care. She has worked in a variety of settings, including an inpatient general oncology ward, where she administered

chemotherapy and ambulatory care. Her clinical expertise is in lymphoma and chronic lymphocytic leukemia (CLL), and she is a clinical nurse specialist in this area. Her graduate work focused on uncertainty and the information needs of patients with CLL. She is developing and implementing a new provincial subcutaneous immunoglobulin (SCIG) program for

patients with cancer with secondary immune deficiencies who require replacement therapy.

Erin's research and clinical interests include uncertainty, second malignancies in CLL, quality of life, and infectious complications in patients with lymphomas and CLL, as well as transitional care planning for patients with lymphoma. She has presented at local and national conferences and published in those areas. She was the past president of her provincial chapter for the Canadian Association of Nurses in Oncology (CANO) and, in 2013, she was awarded the CANO/ACIO-Pfizer Award of Excellence for Clinical Practice at the national conference. As the associate editor of the Clinical Challenges column, she hopes to assist oncology nurses in gaining a deeper understanding of complex clinical cases to better optimize patient care. Erin can be reached at erin.streu@cancercare.mb.ca.
